

Frontend Developer with **3.3 years** of experience in Vue.js, TypeScript, and SCSS. Skilled in building responsive, high-performance web apps and collaborating with cross-functional teams to deliver scalable solutions..

WORK EXPERIENCE

FRONTEND DEVELOPER

Mocero Health Solution

February 2023 - Present

- Developed and maintained responsive web applications using **Vue.js, HTML5, CSS3, SCSS, and Bootstrap** to deliver seamless user experiences. Collaborated with design, backend, and QA teams to ensure smooth UI/UX integration and functionality across the platform.
- Implemented API integrations to streamline data flow and improve application performance.
- Optimized website performance, reducing load times and enhancing user engagement.
- Contributed to delivering scalable solutions that aligned with business objectives and met user needs.
- Basic Knowledge in MsSQL

PROJECTS

INVENTORY MANAGEMENT

Technologies: Vue.js, PrimeVue, BootstrapVue, TypeScript, SCSS.

- Designed and implemented a stock management solution to streamline procurement workflows and simplify inventory tracking.
- Built dynamic, data-driven forms that improved accuracy in stock requests, purchase orders, and returns
- Enhanced usability and responsiveness, making day-to-day inventory handling more efficient for staff.

CUSTOMER RELATIONSHIP MANAGEMENT (CRM) SYSTEM

Technologies: Vue.js, PrimeVue, BootstrapVue, TypeScript, SCSS.

- Designed and implemented a stock management solution to streamline procurement workflows and simplify inventory tracking.
- Built dynamic, data-driven forms that improved accuracy in stock requests, purchase orders, and returns
- Built dynamic, data-driven forms that improved accuracy in stock requests, purchase orders, and returns

BILLING

Technologies: Vue.js, PrimeVue, BootstrapVue, TypeScript, SCSS.

- Built a hospital billing solution to simplify invoice generation and streamline payment workflows.
- Added features for insurance claims, discounts, and financial reporting to support accurate billing operations.
- Optimized the billing interface for faster processing and better staff productivity.

USER MANAGEMENT

Technologies: Vue.js, PrimeVue, BootstrapVue, TypeScript, SCSS.

- Developed a centralized user access and role management system for secure and organized onboarding.
- Implemented role-based permissions, account management, and password recovery workflows..
- Created responsive interfaces that improved usability and simplified administrator tasks.

RELEVANT SKILLS

- **Web Technologies:** HTML5, CSS3, SCSS, JavaScript, TypeScript
- **Frameworks & Libraries:** Vue.js, Bootstrap, Nuxt.js, PrimeVue
- **Development Tools:** Visual Studio Code, Git, Bitbucket, JIRA, Azure DevOps, SourceTree
- **Soft Skills:** Problem-solving, Team Collaboration, Agile Development, Performance Optimization

EDUCATIONAL HISTORY

BACHELOR IN ACTUARIAL SCIENCE

Bishop Heber College,
2019 - 2022
