Frontend Developer · Tamil Nadu, India

Frontend Developer with **3.6 years of experience** in Vue.js, TypeScript, and SCSS. Skilled in building responsive, high-performance web applications and collaborating with cross-functional teams to deliver scalable, user-focused solutions.

WORK EXPERIENCE

FRONTEND DEVELOPER

February 2023 – Present

Mocero Health Solution

Tamil Nadu, India

- Developed and maintained responsive web applications using **Vue.js**, **TypeScript**, **SCSS**, and **Bootstrap**, supporting 4+ internal healthcare modules used daily by clinical and admin staff.
- Collaborated with design, backend, and QA teams across the full development lifecycle to ensure smooth UI/UX integration, reducing post-release bug reports significantly.
- Implemented **RESTful API** integrations to streamline data flow between frontend and backend services, improving data load efficiency across key modules.
- Optimised application performance through lazy loading, code splitting, and component refactoring, reducing initial page load time by approximately **30%**.
- Contributed to delivering 4 production-ready modules — Inventory, CRM, Billing, and User Management — aligned with healthcare business requirements.

PROJECTS

INVENTORY MANAGEMENT

Technologies: Vue.js, PrimeVue, BootstrapVue, TypeScript, SCSS

- Designed and implemented a stock management module to streamline procurement workflows, purchase orders, and inventory tracking for healthcare operations.
- Built dynamic, data-driven forms with real-time validation that improved accuracy in stock requests and reduced manual entry errors.
- Enhanced UI responsiveness across devices, making day-to-day inventory handling more efficient for non-technical medical staff.

CUSTOMER RELATIONSHIP MANAGEMENT (CRM) SYSTEM

Technologies: Vue.js, PrimeVue, BootstrapVue, TypeScript, SCSS

- Developed a CRM module to centralise patient and client data, improving visibility and coordination across departments.
- Built dynamic data-entry forms and filtering views that enabled staff to manage customer interactions, follow-ups, and status tracking efficiently.
- Integrated the CRM module with existing backend APIs to ensure real-time data sync, reducing duplicate records and improving overall data accuracy.

BILLING

Technologies: Vue.js, PrimeVue, BootstrapVue, TypeScript, SCSS

- Built a hospital billing module to automate invoice generation and streamline payment collection workflows for clinical operations.
- Implemented features for insurance claims processing, discount management, and financial reporting to support accurate and auditable billing.
- Optimised billing interface performance and layout for faster task completion, reducing processing time for billing staff.

USER MANAGEMENT

Technologies: Vue.js, PrimeVue, BootstrapVue, TypeScript, SCSS

- Developed a centralised role-based access control (**RBAC**) system for secure user onboarding, permission management, and account administration.
- Implemented role assignment, account management, and password recovery workflows with validation to ensure data security.
- Designed responsive admin interfaces that simplified user management tasks and reduced onboarding time for new staff.

RELEVANT SKILLS

Web Technologies: HTML5, CSS3, SCSS, JavaScript, TypeScript

Frameworks & Libraries: Vue.js, Nuxt.js, Bootstrap, PrimeVue, BootstrapVue

Database: MySQL (Basic)

Development Tools: Git, Bitbucket, Azure DevOps, JIRA, SourceTree, Visual Studio Code

Soft Skills: Problem-solving, Team Collaboration, Agile Development, Performance Optimisation

EDUCATIONAL HISTORY

BACHELOR IN ACTUARIAL SCIENCE

2019 – 2022

Bishop Heber College, Tamil Nadu, India
